

Layers of the Ocean Revision

Task 1: Label the layers of the ocean on the image below. Can you remember what they were from last term?

Task 2: Using the grid below, can you explain a little bit about the other layers of the oceans and research two animals that live in each layer?

Layer	Animals
The Abyss There is no light whatsoever, so often creatures will not have eyes. They are likely to be small due to the pressure and will feed on dead matter from above.
