

Thursday 28th January Geography Task

Locating the Oceans

Today we will be recapping the location of oceans, however today we will be using a compass to give directions.

Task 1: Look at the compass below, or if you have one at home you can use that. Do you know what the letters mean? Discuss them with a grown up.

On the blank compass, can you label the points correctly? Write the full words.

Task 2: Look at the map below. Use the map and the compass to complete the questions on the next page.

Complete the sentences:

1. The _____ ocean is North of the Southern Ocean.
2. The _____ ocean is South of the Atlantic Ocean.
3. The _____ ocean is North East of the Indian Ocean.
4. The _____ ocean is South West of the Arctic Ocean.
5. The _____ ocean is South West of the Atlantic Ocean.
6. The _____ ocean is South/South West of the Indian Ocean.
7. The _____ ocean is South East of the Arctic Ocean.
