

Acomb First School's Climate Action Plan

Let's work together to protect our planet 🌍

ENERGY & DECARBONISATION

Turn off lights and computers when you're not using them!

Making sure we are getting the best from our solar panels.

Improving how our buildings use energy – warmer in winter, cooler in summer!

Replacing old equipment with new, energy-efficient versions.

TRANSPORT

Walk, cycle or scoot to school when you can.

If you travel by car, try car-sharing with friends.

We're making a Travel Plan to help everyone get around safely and sustainably.

WATER

Reduce our water waste.

Reuse rainwater in creative ways in the garden.

Protect our school against flooding.

BIODIVERSITY & GREEN SPACES

We look after our school garden and local parks.

We're planting trees and wildflowers for bees

We protect habitats for animals and insects

CLIMATE EDUCATION & GREEN SKILLS

Learn about the best ways to take care of our planet and sharing that with everyone!

We'll have Climate Ambassadors to help lead green projects!

Green skills will help everyone's future careers!

TOGETHER WE CAN!

Every small action makes a BIG difference and is kinder to the Earth.

2025 - 2026
