What happened to Sergei Ivanovitch?

Today we are going to pretend that we are reporters and we have just entered the lighthouse where Sergei Ivanovitch lived and then disappeared. You are going to write a short newspaper article, reporting on his disappearance. You will need to say what we know so far, the clues left behind, then what you think may have happened to him.

Recap what we know about him so far:

- He was an old Russian sea captain, he was caught in a hurricane and driven onto the rocks of Coracle island.
- He became the lighthouse keeper on Coracle Island.
- One night, the light never came on. Sergei had disappeared.
- Everything was normal, clean, and tidy inside the lighthouse apart from Sea Gull feathers were on the floor by an open window.
- People say he turned into a Gull and flew home to Russia.

What do you think happened to him?
